

**The Thirteenth International Conference on Advances in Databases, Knowledge,
and Data Applications DBKDA 2021
May 30, 2021 to June 03, 2021 - Valencia, Spain**

Tutorial: “Bashing” the Killer from the Command Line

Organizer: Andreas Schmidt, Lisa Ehrlinger, Fritz Laux

Exercise II

In this part, we start looking at the second fact, the wallet of the murder.

1. Find all persons, who are members of all the given institutions.
2. Write the found persons in file called *potential_murder_by_fact2.txt*
3. Combine this result with the suspicious persons from the first exercise (file: *potential_murder_by_facte.txt*).
4. Take a look at the first fact.

You should now have solved the case ... who I the “Bösewicht” ?
